## Schedule Changes Due to SB 328

### Late Start Legislation

# Background on New Requirements

Starting next year, [SB 328](#) will change Education Code 46148 to state:

*“(1) The schoolday for high schools, including high schools operated as charter schools, shall begin no earlier than 8:30 a.m. (2) The schoolday for middle schools, including middle schools operated as charter schools, shall begin no earlier than 8:00 a.m.”.*

**As such, our Bell Schedules for PHS/CMS will need to be adjusted to be compliant with the updated EdCode requirements.**

# Turning Mandates into an Opportunity

- The mandates have forced us to re-exam our bell schedules and has allowed us to scaffold our start times amongst elementary, middle, and high schools.
- Thus, we will start our school days for 22-23 as follows:
  - *Elementary Schools @ 8:00 am, Middle School @ 8:15 am, and High School @ 8:30 am*
- This will likely bring down tardy rates for families who need to drive between sites, reduce some traffic caused from the overlapping of start times, and make zero-periods more enticing for some students.

# Other Requirements to Consider

- [Instructional Minute Requirements](#) for a comprehensive high schools are mandated to have **64,800 minutes of instruction each year**.
  - *Note: We must calculate the total number of minutes of instruction for every given year, including minimum days of instruction, and not simply divide 64,800 minutes by the 180 instructional days to get an average.*
- Minimum/early release days have to be at least [240 minutes](#) each day as this is the minimum length per Ed Code (for most sites).
