Based on the mutually accepted design program and project budget requirements, the ARCHITECT shall prepare, for approval by the CLIENT, Design Documents consisting of drawings and other documents appropriate for the Project.
2. **CONSTRUCTION DOCUMENTS:** Based on the approved Design Documents, the ARCHITECT shall prepare Construction Documents consisting of Drawings and Specifications setting forth, in detail, the requirements for the construction of the Project. The ARCHITECT shall assist the CLIENT in connection with the CLIENT's responsibility for filing documents required for the approval of governmental authorities having jurisdiction over the Project.

4. **CONSTRUCTION PHASE:** The ARCHITECT shall be a representative of the CLIENT during the Construction Phase. Instructions to the Contractor shall be forwarded through the ARCHITECT. The ARCHITECT shall visit the site at intervals appropriate to the stage of construction to become generally familiar with the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. However, the ARCHITECT shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of such on-site observations, the ARCHITECT shall keep the CLIENT informed of the progress and quality of the Work, and shall endeavor to guard the CLIENT against defects and deficiencies in the Work of the Contractor. The ARCHITECT shall not have control of or be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, for the acts or omissions of the Contractor, Subcontractors or any other persons performing any of the Work, or for the failure of any of them to carry out the Work in accordance with the Contract Documents. The ARCHITECT shall review the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for general conformance with the design concept of the Work and with the information given in the Contract Documents. Such action shall be taken with reasonable promptness so as to cause no delay.

**CONSTRUCTION COST:** It is recognized that neither the ARCHITECT nor the CLIENT has control over the cost of labor, materials or equipment, over the Contractor's methods of determining bid prices, or over competitive bidding or market conditions. **OWNERSHIP AND USE OF DOCUMENTS:** Drawings and Specifications, as instruments of service, are and shall remain the property of the ARCHITECT whether the Project for which they are made is executed or not. The Drawings and Specifications shall not be used by the CLIENT on other projects, for additions to the Project, or for completion of this Project by others except by written agreement and with appropriate compensation to the ARCHITECT.

**MISCELLANEOUS PROVISIONS:** Notwithstanding any other provisions in this Agreement to the contrary, nothing herein contained shall be construed as:

1. Constituting a guarantee, warranty or assurance, either express or implied, that the Architectural Services will yield or accomplish a perfect outcome for the Project; or
2. Obligating the Consulting Architect to exercise professional skill or judgment greater than that which can reasonably be expected from other architect under like circumstances; or
3. An assumption by the Consulting Architect of the liability of any other party.
4. The Americans with Disabilities Act (ADA) provides that it is a violation of the ADA to design and construct a facility that does not meet the accessibility and usability requirements of the ADA. The Client understands that the requirements of the ADA will be subject to various and possibly contradictory interpretations. The Architect therefore, will use its reasonable professional efforts and judgment to interpret applicable ADA requirements and other federal, state and local laws, rules, codes, ordinances and regulations as they apply to the Project. The Architect, however, cannot and does not warrant or guarantee that the Client's Project will comply with all interpretations of ADA requirements and/or requirements of other federal, state and local laws, rules, codes, ordinances and regulations as they apply to the Project.

The CLIENT further agrees to require of the Contractor a similar limitation of liability of the ARCHITECT and of the CLIENT to the Contractor and Subcontractors due to the ARCHITECT's negligent acts, errors or omissions. It is understood and agreed that the ARCHITECT has no constructive use of CLIENT's site; has no control or authority over the means, methods, and sequences of construction; and therefore has no ongoing responsibility whatsoever for construction site safety, a responsibility that has been wholly vested in the general contractor. Notwithstanding the above, ARCHITECT has a duty to preserve and protect public health, safety, and welfare. Accordingly, it is ARCHITECT's professional responsibility to take what ARCHITECT believes are prudent measures should ARCHITECT encounter situations that ARCHITECT believes create a danger to public health, safety, or welfare.
