PROPOSAL (Revised 9/30/15)

PROJECT: New greenhouse construction for the Rising Sun School in Vernalis, CA

SCOPE OF WORK: We propose to provide labor, greenhouse material and equipment rental to set the posts and erect the framework on one new free-standing Agra Tech Solar Light greenhouse measuring 30' wide by 72' long (2,160 square feet) with an eave height of 10'. We will cover the roof, sidewalls and endwalls with corrugated polycarbonate and we will install two mandooors.

We will install one Kool-cel pad and vent system measuring 30' long by 4' tall. We will install one sump tank and one sump pump, and we will do the internal plumbing to the sump tank. We will install two 36" exhaust fans and one Modine PDP 200 heater with flue.

We will install one Energy Shield curtain system measuring 30' wide by 72' long, with a slope-flat-slope profile. We will install 144' of side seals.

We will install ten free-standing Agra Tech benches each measuring 4' wide by 12' long. We will assemble the bench framework, install the aluminum side rails, and install expanded metal to the bench tops. We will place the benches into the greenhouse, but final leveling of the benches is not included.

We will install one pad vent motor and one curtain motor, and if the electrical is fully operational we will set the limit switches. If the electrical is not fully operational before the Ag-Con crew has left the site, we will set the limit switches to a preliminary setting and final limit switch adjustment will need to be made by electrical personnel (if Ag-Con needs to return to the job site to set the limit switches, a service call fee may be charged).

This bid does not include auger work, concrete, or rebar for the greenhouse footings, flue materials, redwood baseboard (if needed), plumbing, electrical or gas hook-ups, concrete flat work, site work, or procuring or paying for permits.

This bid does not include receiving, unloading or storage of materials, jobsite security, debris disposal, provision of sanitary facilities, provision of any bid or performance bond.

provision of insurance beyond our customary limits, or third party administration.

Price: All materials prices are good for thirty days.

Labor and equipment rental:	\$57,349.00
Materials:	\$49,837.31
Sales tax @ 8% San Joaquin County:	\$ 3,986.98
Freight:	<u>\$ 4,941.00</u>
	\$116,114.29

This job has been bid at the current Department of Industrial Relations Prevailing Wage for Construction Specialist Laborer, which expires on 6/26/16. Any changes to the wage rate or classification may affect this bid price.

Please see the attached Contractor's Statement of Qualifications and Reference List.

Thank you for giving us the chance to bid on your project. Please contact me directly with any questions about this bid.

Sincerely,

Ray Pound
